DevOps Interchange16 Side-by-Side Agenda

Monday September 19, 2016

Time	Track 1 Enterprise DevOps Cloud Gate Rm 1 - 3rd Floor	Track 2 - Software Development & Testing Cloud Gate Rm 2 - 3rd Floor	Track 3 - IT Process & Operations Cloud Gate Rm 3 - 3rd Floor	Track 4 - Change, Release & Deployment Cloud Gate Rm 4 - 3rd Floor	Track 5 - Mainframe Development Tools & Techniques Cloud Gate Rm 5 - 3rd Floor
7:00AM - 8:00PM	Registration				
7:00AM - 7:50AM	Breakfast				
8:00AM - 9:30AM	General Session with Keynote Presentation				
9:30AM - 10:00AM	Break				
10:00AM - 11:00AM	Enterprise DevOps is Different, Here's Why	In the Fast Lane: Dimensions CM Roadmap	In the fast lane: SBM Product Strategy and roadmap	Release Management: Today and Tomorrow and the Future	Mainframe Roadmap, futures and track kick-off
11:00AM - 12:00PM	Leading the Transformation: "Applying Agile and DevOps Principles at Scale" (shared with Track 4)	Hardening the SDLC with Dimensions CM	Build an SBM App in 15 minutes	Leading the Transformation: "Applying Agile and DevOps Principles at Scale" (shared with Track 1)	Ramping up ChangeMan Migration
12:00PM - 1:00PM	Lunch				
1:00PM - 2:30PM	General Session with Keynote Presentation				
2:30PM - 3:00PM	Break				
3:00PM - 4:00PM	ITIL in a DevOps World	Exploring new and innovative capabilities in Dimensions RM	Expanding SBM beyond Dev and IT	Scaled Agile Framework (SAFE) & Micro Focus	Introducing the Micro Focus Enterprise product set
4:00PM - 5:00PM	DevOps & the Impact of Testing Practices	Shift Left with Continuous Inspection	Key IT Processes Implementation within 10 months in Allianz (Insurance Company)	Release Management: Today and Tomorrow and the Future	ZMF 8.1 upgrade experience: Lessons learned and best practices
6:00PM - 8:00PM	Technology and Partner Reception				

Tuesday September 20, 2016

Time	Track 1 Enterprise DevOps Cloud Gate Rm 1 - 3rd Floor	Track 2 - Software Development & Testing Cloud Gate Rm 2 - 3rd Floor	Track 3 - IT Process & Operations Cloud Gate Rm 3 - 3rd Floor	Track 4 - Change, Release & Deployment Cloud Gate Rm 4 - 3rd Floor	Track 5 - Mainframe Development Tools & Techniques Cloud Gate Rm 5 - 3rd Floor
7:00AM - 4:00PM	Registration				
7:00AM - 7:50AM	Breakfast				
8:00AM - 9:30AM	General Session with Keynote Presentation				
9:30AM - 10:00AM	Break				
10:00AM - 11:00AM	Improving software development and efficiency using Kanban (shared with Track 3)	Continuously Secure and Manage Your Open Source components	Improving software development and efficiency using Kanban (shared with Track 1)	Not part of Dev/Not part of Ops (Release management in a Highly regulated Firm)	Mainframe DevOps
11:00AM - 12:00PM	Case Study: Implementing Enterprise Release Management at GAIG	Implementing Solutions with Dimensions RM: Moving requirements from Confusion to Compliance	Serena Service Manager in an ALM world	Case Study: Implementing Enterprise Release Management at GAIG	It's a-BOT time we chat! How can we do more with our tools without having to know how to use them
12:00PM - 1:00PM	Lunch				
1:00PM - 2:00PM	5 Agile DevOps Integration Pitfalls to Avoid	Extending Continuous Inspection with your own tools	Release Management & Beyond: Using the Release platform for other processes (shared w/Track 4)	Release Management and Beyond: Using the Release platform for other processes (shared with Track 3)	Pay now or pay more later
2:00PM - 3:00PM	Using Requirements to Achieve Business Agility	Continuous Delivery with Silk	The Zen of Service Management from Micro Focus	Enterprise Release Management in practice at a multinational financial services corporation	Mainframe Continuous Integration
3:00PM - 4:00PM	Deliver Exceptional User Experience across All Devices	Case Study: Enterprise ALM implementation at Banco de Galicia	Security and ITIL		Implement unique version labeling in CMN-ZMF with staging versions and exit 19
4:00PM - 5:00PM	Enterprise DevOps in the Real World	Mobile application testing	Enterprise-wide Project Status and Health Reporting using SBM and Microsoft SQL Reporting Services	Enterprise DevOps in the Real World	Identifying and closing the mainframe security gap
6:30PM - 9:00PM	xTravaganza				

Wednesday September 21, 2016

Time	Track 1 Enterprise DevOps Cloud Gate Rm 1 - 3rd Floor	Track 2 - Software Development & Testing Cloud Gate Rm 2 - 3rd Floor	Track 3 - IT Process & Operations Cloud Gate Rm 3 - 3rd Floor	Track 4 - Change, Release & Deployment Cloud Gate Rm 4 - 3rd Floor	Track 5 - Mainframe Development Tools & Techniques Cloud Gate Rm 5 - 3rd Floor
7:00AM - 12:00PM	Registration				
7:00AM - 7:50AM	Breakfast				
8:00AM - 9:00AM	Containers change everything	The way, why and how of containerization with Dimensions CM	SBM Ease of Use: You don't have to be an engineer to be successful	Deployment Automation: Best Practices	Automated verification and allocation of promotion, baseline and production DSNs
9:00AM - 10:00AM		Why use Dimensions CM as a centralized vault	Managing SBM Administration in the Enterprise	Maximize your Deployment Automation Reach: Build your own plug-in	Enterprise Developer Deep Dive
10:00AM - 11:00AM	Introduction to the Micro Focus Testing Platform	Embracing Git	Top ten ideas on Serena Central - feedback and discussion	Mainframe and Distributed releases - deployed together and live	Mainframe and Distributed Releases - deployed together and live (Shared with Change, Release, & Deploy)
11:00AM - 12:00PM	Enterprise DevOps Best Practices for Accelerating Application Delivery	Automating your Dimensions deployments with SDA	Upgrading is no longer a scary weekend project	Automating your Dimensions deployments with SDA	Auditing ChangeMan ZMF administration
12:00PM - 1:00PM	Lunch				
1:00PM - 2:00PM	The What, Why and Which of Agile Frameworks	Tuning CM for optimal performance	Case Study: Low Code/Total Cost of Ownership	Release control and Deployment automation in action	Manage pre-production status datasets that cannot be concatenated
2:00PM - 3:00PM	Open Spaces about all things DevOps (shared with Track 4)	End-to-end ALM with SBM and Dimensions CM	Understanding and amplifying security in SBM	Open Space about all things DevOps (shared with Track 1)	HLLX – Experiences, Tips and Tricks
3:00PM - 4:00PM	Farewell Micro Focus DevOps InterChange
