

SERENA® TEAMTRACK® WITH TTFASTTRACK® FROM AVERSAN

Improve business performance by automating processes with TTFastTrack from Aversan.

KEY FEATURES

SERENA TEAMTRACK

Streamline, automate, and enforce critical processes:

- Ensure uniform, repeatable, traceable processes
- Improve information flow and collaboration
- Implement consistent process management practices
- Evaluate process efficiency in order to optimize processes over time
- Gain visibility into quality metrics and information
- Enforce best practices, standards, and compliance

AVERSAN TTFASTTRACK

Custom configured workflows with a rich BPA library that includes:

- Work Request Tracking System
- HR Tracking System
- Business case Approval and Tracking System
- Service Improvement Process (SIP) Tracking System
- SOX Tracking System
- Software Development Change Control and Defect Tracking
- Software Development Resource Utilization Tracking

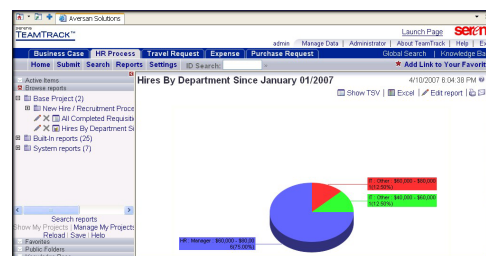

Business Process Automation (BPA) is a clear path to improved business performance. However, not every participant in a business process is a technical expert. BPA tools need to be flexible and intuitive so that all levels of contributors can easily understand and manage the workflow of a business process. Yet the tool needs to be robust enough to support complex and critical processes for SOX, ITIL, and other regulatory compliance.

Serena TeamTrack is ideal for BPA and IT regulatory compliance. It is easy to use and is configurable for specific workflows. Used by thousands of companies around the world, from small startups to industry giants, Serena TeamTrack enables you to control and automate any kind of business process, track and manage changes and issues throughout the lifecycle of projects, and facilitate collaboration among stakeholders.

AVERSAN BPA SOLUTIONS LEVERAGE TEAMTRACK

With years of expertise implementing Serena TeamTrack for its customers, Aversan is uniquely positioned to create your own BPA solution, integrating with third party tools and leveraging processes that you have in-house today.

Aversan has collected a library of TeamTrack Workflows that can be quickly customized, deployed, and embedded in your organization within 60 to 90 days.

The Aversan TTFastTrack allows you to quickly automate, enforce, and track your processes.

RESULTS THAT MAKE BUSINESS SENSE

Consider these results from Fortune 500 companies that have used TeamTrack and Aversan solutions to improve their business performance:

1. A leading market data company reduced their Quote/RFP response cycle by as much as four days, thanks to TeamTrack automation. Now they can respond faster, compete in more opportunities, and with fewer resources than their competitors.
2. A major manufacturing company was able to enjoy significantly higher operating margin than their chief competitor by automating their product defect tracking and resolution processes.

3. A Wall Street company applied ITIL service improvement processes to systematically resolve their top infrastructure problems, improve their services metrics, and significantly reduce hours spent performing unplanned tasks.

PUT THE SERENA-AVERSAN PARTNERSHIP TO WORK FOR YOU

Aversan customizes and integrates Serena TeamTrack with your unique processes and in-house tools to provide:

- Seamless process-to-process workflows across silos between operational and other enterprise processes
- Extensive automated audit log for regulatory compliance
- Instant visibility into quality metrics and information
- Cost and resource tracking
- Enforcement and automation for CMMI, ITIL and other best practice frameworks

Serena and Aversan together provide a solution that allows our customers to enforce superior yet agile processes to gain a competitive edge and better business performance.
